

# GLOBAL PERSPECTIVES THROUGH LOCAL ACTION: CITIZEN SCIENCE, TEACHERS & STUDENTS

**Sarah Staunton-Lamb**  
**Senior Engagement & Learning Manager**  
**Earthwatch Europe**  
**ECSA Conference 2018**

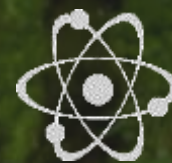

CREATING  
KNOWLEDGE,  
INSPIRING  
ACTION.

We bring people and expert  
scientists together,

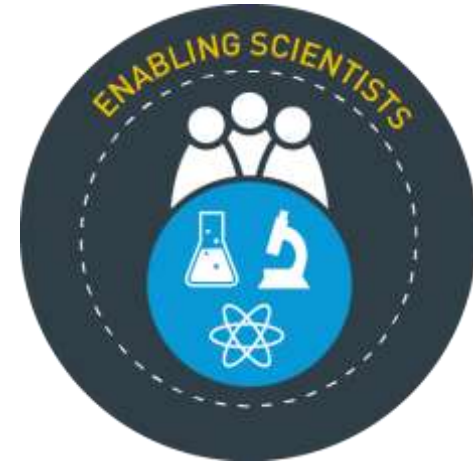

deliver transformational  
experiences around the world,

to promote the understanding  
and action necessary for a  
sustainable environment.

# UNDERSTANDING SPECIES AND PEOPLE

*"We only have one planet. We have nowhere else to go.  
If we use our creative powers properly we don't need  
anywhere else. If we take care of it, and each other,  
everything we need is right here"*

Sir Ken Robinson, Author and Educator

**THE GLOBAL GOALS**  
For Sustainable Development

# THE GLOBAL GOALS

For Sustainable Development

# MAKING CONNECTIONS

- SDGs - a global focus with the power to end poverty, fight inequality and stop climate change,
- For the goals to be met, everyone must do their part: governments, private sector, civil society & the general public.
- Key aspects to making this happen are individuals connecting to and valuing nature, and believing they have agency to make change happen.

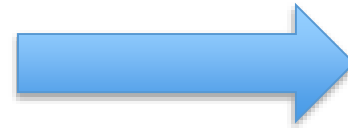

## THE NEXT GENERATION

Evidence has shown that:

- children who **connect** with and **value nature**

- are more likely to demonstrate **pro-environmental** behaviours.

Why do children need to connect to nature?

# EARTHWATCH ACTION: HOW WE ENGAGE

 **Teach Earth**

Let the Earth be your classroom!

A teacher training weekend to learn about outdoor experiments through citizen science, including free take-home materials, kits and lesson plans on science projects and the Sustainable Development Goals (SDGs) that fit into the national curriculum.

**Booking now open for 2018!**

Join us in Oxfordshire  
25-27 May, 1-3 June or 27-29 July,  
or in Ceredigion, Wales,  
13-15 July.

**Discover Earth** 

Let the Earth be your classroom!

 A range of **FREE** on-site activities in your school delivered by Earthwatch facilitators, including:

- A Citizen Science Roadshow offering a school assembly, outdoor classes and exploration of the Sustainable Development Goals (SDGs) 
- A Discovery Day that brings together teachers from your local area to network and learn collectively about citizen science and how to bring the SDGs to life 

**Booking now open for 2018!**
